## *Maria Skalińska Festschrift*

### CONTENTS

- A. JANKUN: Maria Magdalena Skalińska (1890-1977) – the 100th anniversary of her birth  
S. M. WALTERS: Professor Maria Skalińska: an appreciation from England  
M. KOVANDA: Professor Maria Skalińska: a personal recollection  
A. LIMA-DE-FARIA: The new ethics in a multibiological society  
C. FAVARGER: Liens génétiques entre la flore orophile des Tatras et celle des Alpes à la lumière de quelques complexes polyploïdes  
J. CONTANDRIOPOULOS: Quelques réflexions à propos de l'endé misme insulaire (la Corse). Methodes de travail  
S. R. J. WOODSELL: Pollen flow in three species of *Primula* (Primulaceae) in Britain  
K. M. URBANSKA: Pollen and male function in angiospermous plants  
T. W. J. GADELLA: Reproduction, variation and interspecific hybridization in three species of *Hieracium* section *Pilosellina* (Compositae)  
S. ASKER: Diploid *Potentilla argentea* (Rosaceae) – apomictic or not?  
R. CZAPIK: Some research problems of the endosperm in Angiospermae  
T. B. BATYGINA: Nucellar embryoidogeny in *Poa pratensis* (Poaceae)  
J. MAŁECKA: Variability in female gametophytogenesis in *Solidago graminifolia* (Compositae) from Poland  
J. BOHDANOWICZ & K. TURAŁA-SZYBOWSKA: Ultrastructure of the mature embryo sac in *Aconitum vulparia* (Ranunculaceae): the central cell  
A. FERNANDES: Sur l'évolution du *Narcissus nivalis* (Amaryllidaceae) dans une Nordaie à la Serra da Estrela (Portugal)  
W. NAGL: Two human sequences (aromatase, telomere) detected in *Phaseolus* (Fabaceae) by respectively blot and *in situ* hybridization  
S. BARONCELLI, A. CAVALLINI & F. D'AMATO: Cellular processes in the development of epidermal cell lines in the first foliage leaf of *Triticum durum* (Poaceae): effects of light and gibberellic acid

P. M. SANDERS, L. PRZYWARA & K. K. PANDEY: A further investigation of sub-lethal pollen irradiation in *Nicotiana* (Solanaceae)

K. K. PANDEY, L. PRZYWARA & P. M. SANDERS: Induced parthenogenesis in kiwifruit (*Actinidia deliciosa*, Actinidiaceae) through the use of lethally irradiated pollen

J. H. HUNZIKER: Protandry in *Alstroemeria psittacina* (Alstroemeriaceae)

H. E. WEBER: A survey of the bramble species (*Rubus* subgenus *Rubus*, Rosaceae) in Poland

Z. MIREK: *Senecio umbrosus* (Compositae) – a new species in the flora of the Tatra Mountains

M. OLECH: *Japewia tornoensis* (Lichenes), a species new to the Antarctic

T. MAJEWSKI: The genus *Siemaszkoa* (Fungi, Laboulbeniales) in Poland

A. CHLEBICKI: Notes on Pyrenomycetes and Coelomycetes (Fungi) from Poland

B. GODZIK: Accumulation of heavy metals in *Biscutella laevigata* (Cruciferae) as a function of their concentration in substrate
